Presenter Experience with Foot Locker

- ➤ Have followed the company closely and the industry including key suppliers and competitors for nearly 20 years
- ➤ Have personally conducted multiple 100s of Foot Locker and competitor store visits in many U.S. markets and in multiple countries
- ➤ LONG FL was one of our best-ever recommendations in a previous sell-side role, rising ~400% from <\$11 to over \$50 from 2009 to 2014

Intro: Foot Locker, Inc. (FL)

Foot Locker is a global retailer of athletic footwear, apparel and accessories, currently operating ~2,700 stores in 27 countries

- Estimated FY21 revenues of \$9.1B
- > EBITDA margin: estimated near 14% for FY21 vs. 10-year average of 12.4%
- > 2021E Capex ~\$260M (2.8% of sales).
- ➤ Balance Sheet: \$745M* cash, \$10M in long-term debt. Has leases. We forecast a 2021 leverage ratio of 3.3x lease adj. debt to EBITDAR.
- > FY21 Free cash flow estimated at \$509M (\$4.96 share, 8.7% yield);
- \$1.30 annual dividend (2.2% yield)
- Recent price \$53 (as of Sept 8, 2021), current market cap: \$5.6B.

^{*} After planned \$1.1B expenditures for acquisitions expected to close in the current quarter

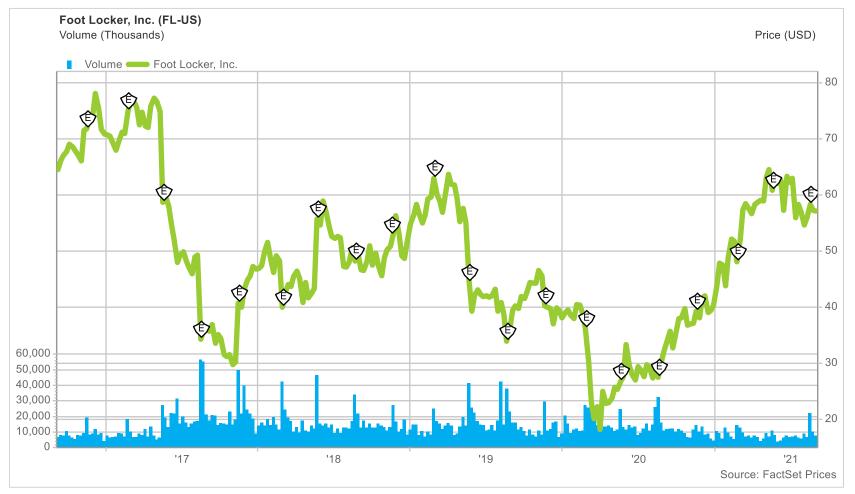

Foot Locker, Inc. (FL) Select Data

- ➤ Banners operated include Foot Locker, Lady Foot Locker, Kids Foot Locker, Champs, Footaction, Sidestep, & Eastbay.
- Geographic distribution: ~27% of revs outside the U.S.
- Product distribution: 84% footwear, 12% apparel, 4% accessories
- Channel distribution: 22% DTC (online orders)
- Vendor distribution: 75% of all products purchased from Nike, Inc. (Nike, Brand Jordan, Converse) with 91% from five suppliers
- Change in store count over the past five years -12%.
- ➤ Loyalty program: FLX (launched Feb 2020) offers exclusive/ early access and free shipping (no program fee) and had 25M members recently

Five Year Chart: Trading 32% below All Time High of \$78

Added to Quo Vadis LONG idea list on 10/1/2020 @ \$33.03

Investment Thesis

The Street is underestimating the benefits from changes in Nike distribution and the environment post-Covid and therefore estimates are too low.

We see upward revisions driving valuation expansion with a potential 50% gain over one year.

1. The Valuation

FL shares currently trade at <8x P/E on FY22E & 4x EV/ FY22E EBITDA

	VS. FY22 CONSENSUS ESTIMATES	VS. 10 YEAR HISTORICAL AVERAGE
EV to Sales	0.5x	0.6x
EV to EBITDA	4.2x	5.1x
P/E	7.8x	12.6x
EV TO FCF	6.2x	9.1x
DIV YIELD	2.3%	2.0%

Source: Quo Vadis Capital Estimates, FactSet, EV adjusted for pending acquisitions

We think these multiples are pretty darn low

FL has the lowest valuation of its peer Group

Source: FACTSET, Company Reports, Quo Vadis Capital, Inc. estimates

Undeniable That FL is a Very Cheap Stock

So, by now you should suspect there is something really wrong...

2. The Market's Misunderstanding

Two areas:

First, the Market Thinks Nike is Planning a "Last Dance" with Foot Locker

Second, we believe investors are underestimating the effects of rationalization in the industry and post Covid demand

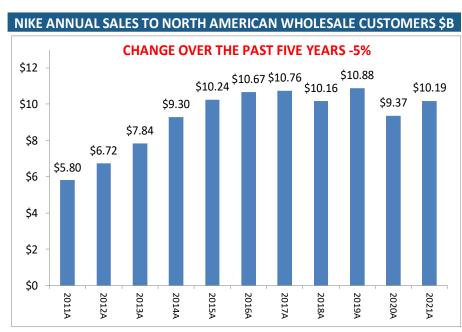

Not Possible to Understand Foot Locker without Understanding Nike

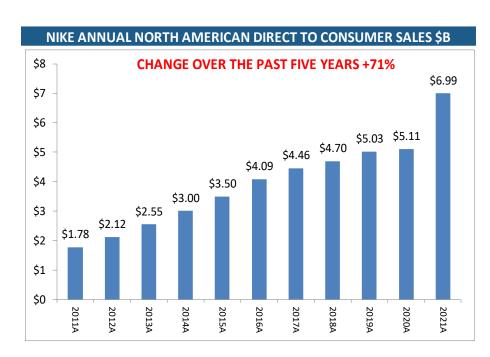

In 2017, NIKE announced a new strategy called "Consumer Direct Offense"

Foot Locker bears believe this strategy means Nike plans a "Last Dance" with Foot Locker and will pull product and demand more margin

What has happened? Nike Shrank N.A. Wholesale 5% and Grew DTC 71% Over the past Five Years

Source, Nike, Quo Vadis Capital, Inc. estimates

Looks <u>really bad</u> for a Nike retail partner, right? The music for the last dance is playing!

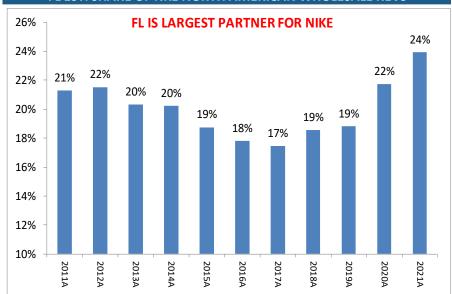

But Wait! Even as Nike Shrank N.A. Wholesale, Foot Locker's relationship with NIKE has deepened

FL EST. NORTH AMERICAN ANNUAL RETAIL SALES OF NIKE PRODUCTS \$B

FL EST. SHARE OF NKE NORTH AMERICAN WHOLESALE REVS

Source: Nike, Foot Locker, Quo Vadis Capital, Inc. estimates

Further, Nike Has Publicly Supported Foot Locker on Many Occasions; Meanwhile...

Nike has cut off the following retailers altogether:

≻ DSW Belks

Urban Outfitters
Dillard's

➤ Shoe Show
Zappos

➢ Big Five Sporting Goods Bob's Stores

Dunham's Sports
Fred Meyer

Olympia Sports
EbLens

≻ VIM City Blue

> Perhaps 100s of small independent retailers

>And EVEN AMAZON DOT COM was canceled by NIKE

But that's not all, plenty of Competitors Stopped Getting Nike in Virtue of No Longer Existing...

Former retailers of NKE goods that have closed permanently (year):

- ➤ The Sports Authority 2016
- Modell's 2020
- MC Sports 2017
- City Sports 2015
- **Eastern Mountain Sports & Shorts Chalet 2017**
- Numerous Department Store Chains & Independents together operating 1000s of doors

Summary of Evolution of Nike Ecosystem

- Nike wants its product sold at full price
- ➤ Nike cut off retailers and eliminated 1000s of points of distribution
- ➤ Nike pulled its product from Amazon.
- Covid accelerated rationalization of the industry
- > Foot Locker's business with Nike has grown

There is no question in our opinion, that the new retail competitive landscape and Nike distribution strategies are massive positives for Foot Locker

Foot Locker, Inc. (FL)

Ok, so you addressed supply, what about demand?

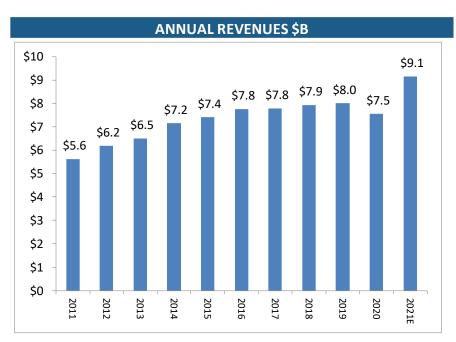

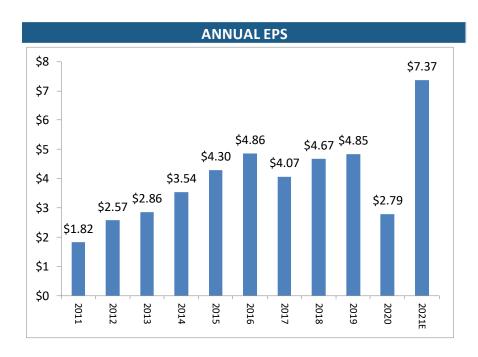

The Demand Side of the Equation is Also Very Positive

- ➤ Consumer interest in fitness and athletic activity have been amplified by Covid
- ➤ Work/ School-from-home have accelerated casualization, which benefits comfortable athletic looks
- ➤ Foot Locker customer skews younger and less affluent and likely benefits from Child Tax Credit & other govt. transfer payments

Given all this, it should be no surprise that Foot Locker is on track in 2021 to report its highest sales and profits in the history of the company

Source: Company Reports, Quo Vadis Capital, Inc. estimates

3. The Catalyst

Analysts and Investors are Skeptical

➤ The Street is modeling FL as if FY21 sales and margin performance is a 1x Event (& this is how the stock is priced)

If we are right on sustainability of demand and margins in post Covid environment

= upward revisions to forecasts

Plus multiple expansion to ONLY 10x P/E, FL shares could rise to >\$80, representing 50% upside

This likely underestimates true upside

4. The Other Considerations & Ways to Win

Investment in GOAT

- ➤ Foot Locker made a strategic minority investment in online sneaker reseller GOAT in 2019 for \$100M.
- ➤ GOAT recently conducted (in June) a series F fundraising valuing the total business at \$3.7B.
- Foot Locker's stake is now listed at \$728M (\$7 share) and is listed on the balance sheet.
- > This could be distributed to shareholders or monetized.
- We have not considered the GOAT stake in any of our valuation work.

Estimated P&L for Recent Deals

- ➤ Foot Locker recently announced the acquisitions of WWS and atmos for \$1.1B. Guidance is for accretion of \$0.44-\$0.48 per share in FY22.
- ➤ FL shares are trading lower since deals were announced Aug 1, suggesting the market is ascribing no value to these assets.

> Yet we estimate	~\$100M	of EBITDA	by FY23
-------------------	---------	-----------	---------

		-			
	FY20A	FY21E	FY22E	FY23E	
WWS & ATMOS	\$425M \$170M				
Revs Both deals	\$595M	\$714M	\$821M	\$931M	
% change		20%	15%	13%	
EBITDA			\$80M	\$102M	
margin			10%	11%	
EPS to FL	\$0.20) (4QFY21)	\$0.44-\$0.48	\$0.61	
Carrear Campany reports and O	va Vadia Canital Inc.				

Source: Company reports and Quo Vadis Capital, Inc. estimates

Could FL be acquired by Nike?*

- ➤ Nike could acquire Foot Locker to accelerate its Consumer Direct Offense
- > NKE market cap is \$260B. FL market cap is \$6B. NKE had \$13B in cash and \$12B in LT debt at the end of May.
- ➤ Even in a scenario where NKE paid a 50% premium or \$8.3B (our \$80 target) and lost ½ of FL's non-Nike business, we still estimate this deal would add materially to NKE pre-tax income
- ➤ A deal in NKE shares or a combination of stock and cash would also be possible and immediately very accretive

^{*} We have <u>no knowledge</u> of any talks between these two companies nor have we discussed this idea with either company.

Conclusions

- **▶** Foot Locker is a very cheap stock
- ➤ The environment has changed in a very favorable way for the company
- > Revenues and earnings will reach all-time highs this year
- ➤ However, analysts and investors believe this is due to temporary factors
- ➤ We believe higher profits and earnings are structural and durable
- ➤ We see upward revisions and potential for multiple expansion
- ➤ Potential @10x P/E = \$80 representing 50% upside

Risks and Other Considerations

Foot Locker (FL) is a global retailer of athletic footwear, apparel and accessories.

- ➤ On a near-term basis, supply chain disruptions related to ocean freight and Covid19 could impact results.
- ➤ A majority of Foot Locker stores are located in shopping malls, which are experiencing long term secular declines in traffic.
- ➤ One vendor (Nike) accounts of 75% of sales (via three brands) if this vendor fails to produce desirable product or its brand becomes damaged it would be difficult for FL to pivot and replace this business.
- > FL faces competition from online-only retailers and brands selling directly to customers.
- ➤ The company does not own its real estate and is exposed to changes in rental rates. It is also exposed to labor rate inflation.
- The company is exposed to economic factors that impact consumer spending.

Presenter Bio – John Zolidis

- ➤ Founded Quo Vadis Capital, an equity research consultancy and Registered Investment Advisor (RIA) in 2017
- > Analyst following U.S. consumer sector since 1999
- > Named to Wall Street Journal's Best on the Street list in 2005

More at quovadiscapital.com

Quo Vadis Capital, Inc. Stock Selection Process

- Our focus is on consumer sector, and we specialize in companies which can be analyzed by estimating and segmenting unit economics
- ➤ We solve for ROIC and Return on Incremental Invested Capital (ROIIC) at the unit and corporate level
- ➤ In LONGS we look for companies with upside to consensus estimates, a high ROIC and/or a rising trend in ROIC, rising margins, or accelerating growth and attractive valuations
- ➤ In SHORTS we look for companies with downside to consensus forecasts, weak ROIC or deteriorating trend in ROIC, margin contraction, decelerating growth and unattractive valuations
- ➤ OUR FAVORITE INVESTMENT THEME is finding a company where the next dollar to be invested in the business has a significantly different return profile than the base business. In other words, return on incremental investment is materially greater or lower than return on overall investment (ROIIC is > or < ROIC)

Disclosures

General Disclosures:

Quo Vadis Capital, Inc. ("Quo Vadis") is an independent research provider offering research and consulting services. The research products are for institutional investors only.

The price target, if any, contained in this report represents the analyst's application of a formula to certain metrics derived from actual and estimated future performance of the company. Analysts may use various formulas tailored to the facts and circumstances surrounding a specific company to arrive at the price target. Various risk factors may impede the company's securities from achieving the analyst's price target, such as an unfavorable macroeconomic environment, a failure of the company to perform as expected, the departure of key personnel or other events or circumstances that cannot be reasonably anticipated at the time the price target is calculated. Quo Vadis may change the price target on this company without notice. Additional information on the securities mentioned in this report is available upon request. This report is based on data obtained from sources Quo Vadis believes to be reliable; however, Quo Vadis does not guarantee its accuracy and does not purport to be complete. Opinion is as of the date of the report unless labeled otherwise and is subject to change without notice. Updates may be provided based on developments and events and as otherwise appropriate. Updates may be restricted based on regulatory requirements or other considerations. Consequently, there should be no assumption that updates will be made. Quo Vadis disclaims any warranty of any kind, whether express or implied, as to any matter whatsoever relating to this research report and any analysis, discussion or trade ideas contained herein. This research report is provided on an "as is" basis for use at your own risk, and neither Quo Vadis nor its affiliates are liable for any damages or injury resulting from use of this information. This report should not be construed as advice designed to meet the particular investment needs of any investor or as an offer or solicitation to buy or sell the securities or financial instruments mentioned herein. This report is provided for information purposes only and does not represent an offer or solicitation in any jurisdiction where such offer would be prohibited. Commentary regarding the future direction of financial markets is illustrative and is not intended to predict actual results, which may differ substantially from the opinions expressed herein. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur.

The analyst who is the author of this report does not have a position in shares of the companies that are the subjects of this report. However, Quo Vadis prohibits analysts from trading in a way that is inconsistent with opinions expressed in reports [subject to exceptions for unanticipated significant changes in the personal financial circumstances of the analyst].

This report may not be reproduced in part or in whole without permission. Please do not redistribute this report.

Reg AC Certification:

All of the views expressed in this research report accurately reflect the research analyst's personal views about any and all of the subject securities or issuers. No part of the research analyst's compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views expressed by the research analyst in the subject company of this research report.
